Re: Boyce v. Shore Cycle et al
Docket No.: OCN-L-180-98
Our File No.: 713,988

Gentlemen:

I would like to take a moment to personally thank you for the excellent work that you did in this case. Although we were all looking forward to trying it, we secured a highly favorable settlement that we could not turn down.

The serious allegations of video tampering and spoliation of evidence that were cast against our liability expert posed obvious dangers in defending this products liability case. Notwithstanding the fact that the plaintiff's attorney and the plaintiff's liability expert were expected to testify against us, your video forensic expertise coupled with your enthusiasm for challenging the video tampering conclusions proposed by Steve Cain clearly forced our opponents to reconsider their position. In the end, your ability to attack the highly distracting yet dispositive issue to the ultimate outcome of this case resulted in a settlement of the plaintiff's claims at approximately one-third of their pre-trial value. As I have advised you both in the past, I genuinely believe that the two of you are largely responsible for this and I would like to thank you for your excellent work in helping us defend the plaintiff's claims.

I look forward to having an opportunity to hopefully work with the two of you in the future.

Very truly yours,

RAWLE & HENDERSON LLP
