Stephen P. New Law Office

328 Neville Street

Beckley, WV 25801-4623

Dear _____

I would like to thank you personally for setting up the independent exam with Dr. Victor Poletajev. I was truly impressed with how thoroughly the examination was performed. The Doctor seemed extremely knowledgeable and genuinely interested in how this injury has affected my life. This experience was very much *unlike* the previous compensation doctors I have seen. The examination could not have been more pleasant. I have never had a Doctor to take as much time to do his job right and not rush me out the door for his next patient. He listened to *my* answers to his questions without telling *me* how *my* injuries should feel. Dr. Poletajev showed respect for me and did not belittle me, like so many of the other compensation doctors I have seen in the past.

I would most definitely recommend that, in the future, your office send all of their compensation clients to Dr. Poletajev. After working with compensation and their recommended doctors, it was truly refreshing to be seen by a doctor who was professional and believed in the oath. He was friendly and proficient. This appointment was indeed a welcome change in the drive toward the end of this battle.

Thanks again,

Jere _____
